

Investing in Tobacco-Free Youth Coalition

Protect Children, Save Lives, Reduce Healthcare Costs

Organizational Endorsement of the Investing in Tobacco-Free Youth Coalition

The Investing in Tobacco-Free Youth Coalition is dedicated to reducing the problem of non-cigarette tobacco products, called “other tobacco products” (OTP), use by Ohioans, especially our youth. The Coalition is seeking to make the products less appealing to youth by correcting the inequity between the OTP tax and the cigarette tax. The revenue generated would be used to fund the youth prevention and community tobacco prevention and cessation programs around Ohio whose existence is now threatened.

Our organization agrees to become a member of the Investing in Tobacco-Free Youth Coalition. We endorse the efforts of the Coalition to reduce the use of OTP products, correct the OTP tax inequity, and fund tobacco prevention and cessation programs in Ohio.

As a member, we hereby authorize the Investing in Tobacco-Free Youth Coalition to use our organization’s name in any of its official verbal, print or electronic communications associated with the Coalition.
